

Fake News Detection

With explanation

Important File Links related to Model:

Data set Links:

- ISOT Dataset for training model
 - <https://www.kaggle.com/datasets/rahulogoel/isot-fake-news-dataset>
- LIAR Dataset for factual Information
 - <https://www.kaggle.com/datasets/doanquanvietnamca/liar-dataset>

Model Output Links for Deployment:

- Hugging Face repository: <https://huggingface.co/spaces/Anirudh765/fakenews-detector/tree/main>
- Contains all files related to model for deployment on streamlit
- Structure of it is as follows:
 - App.py
 - Requirments.txt
 - Models:
 - Bilstm_model.h5
 - Keras_tokenizer.pkl
 - RAG:
 - Liar_df.pkl
 - liar_index.faiss
 - news_index.faiss
 - news_chunks_df.pkl

*All files links are attached due to high sizes
